OBJECTIVE

An aspiring UI/UX and graphic designer looking for an internship position to learn from industry experts and develop my existing skill set.

PROJECTS

- **PhalTU (Team project for Hackathon)**

  Created a flutter application allowing students to order fruits easily while allowing them to freelance as well.

- **Farmoney(Team project for Hackathon)**

  Created a Flutter application that created a platform for retail investors to invest in agriculture with algorithms to rank the farms.

- **BoredApp(Team project for Hackathon)**

  Created a Flutter application that gives out suggestions when you're bored. It is an all-in-one place for getting song, movie, anime, and game recommendations.
